TERMS ON FARM SEEDS ARE CASH

Kansas City, Mo.
Feb. 25, 1927

We quote for **Immediate Shipment**, the following farm seeds and supplies, **delivered freight or express depots, Kansas City, Mo.** Prices subject to market changes and stock being unsold. We issue this **Special Pink List** about every ten days or so, during the planting season, and will be glad to send them to you on application at any time. If you are wanting large quantities of seeds send us a list of same and we will make special close prices. Also will send samples on request.

K. C. BRAND BARGAIN BRAND

This represents the very best re-cleaned seed that can be obtained.
THE BEST COUNTRY RUN SEED WE CAN BUY

DISCLAIMER—So many different conditions may arise regarding the germination and growth of seeds, bulbs or plants such as planting too shallow or too deep, destruction by insects, frosts, chemical changes, etc., that we are forced to sell our seeds under the non-guarantee rule by all seedsmen, viz.: The Harnden Seed Company while they exercise great care in the selection of their seeds, give no warranty, expressed or implied, as to description, purity, productiveness of any seeds, bulbs or shrubs they send out and they do not in any way guarantee them or be responsible for the crop. If the purchaser does not accept the goods on these terms they are at once to be returned.

ALFALFA

New Crop Kansas Grown Seed

Sow alfalfa. We recommend sowing 20 lbs. seed to the acre.

GRIMM—ALFALFA

This new hardy northern grown alfalfa is becoming more popular every year, will stand severe cold weather, stools out more and only requires about ten pounds of seed to sow an acre. We recommend this seed very highly and costs very little more to sow an acre of ground as it only requires about one-half the amount of seed.

NITRAGIN

Alfalfa, clovers, soy beans, vetches, peas, beans, cowpeas, peanuts, and other legumes should always be inoculated with Nitragin. The lack of necessary bacteria in the soil is often the cause of a poor legume crop—a weak start—or a total failure.

How to Order Nitragin

Culture "A"—Alfalfa, all Sweet Clovers (including Hubam), and Bur Clover.

Culture "B"—Clovers, Red Clover, Mammoth Red Clover, Alsike, Crimson and White Clover.

Culture "C"—Field and Garden Peas, Vetches (Hairy, Spring, Wild), Broad Bean, Sweet Peas, Perennial Peas and Lentils.

Culture "D"—Field and Garden Beans (including Navy, Kidney and Scarlet Runner Beans).

Culture "E"—Cow Peas, Lima Beans, Velvet Beans, Partridge Peas, Japan Clover and Peanuts.

Culture "S"—Soy Beans (all types).

Garden Nitragin—For Garden Peas, Sweet Peas, Beans and Lima Beans (three-in-one.).

All cultures, except Garden Nitragin and Specials, are listed as 1/4-bu., 1/2-bu., 1-bu., and 5-bu. sizes.

VETCH

Vetch has proved itself in this part of the country and is recognized by the potato growers as the greatest fertilizer crop they have ever used; also a good crop to be followed by alfalfa. Requires from 20 to 30 lbs. to the acre.
